Page 1: 2020 Moreland Council Candidate climate survey

Q1

Candidate Name

chris miles

Q2

North West Ward

Contesting Which Moreland Ward?

Q3

Animal Justice Party

Are you a candidate for a political party? Which Party?
Or are you standing as an Independent candidate?

Q4

If you are receiving campaign funding for this election, who are you receiving funding from? (list all or state 'None')

my party has raised money for my campaign

Q5

North West Ward

Connections to Moreland Wards. I am a resident in:

Q6

What are your other connections to Moreland wards

I am a volunteer / unpaid carer in

North West Ward

Other (please specify) If you have other connections to Moreland, please state the ward(s) and the connection(s) briefly in 100 characters.

I am member of the Coburg cycling club

Q7

Triple bottom line accounting brings to account three domains that we need for a good life. They are economic, environmental and social which includes health. Do you commit as a Councillor for Council to use triple bottom line accounting on all Council infrastructure projects and will you try to ensure that climate emergency is embedded in every Manager's performance plan?

(no label)

Agree Strongly

Q8

Transport: Upfield Rail Upgrade - Problems with parking and traffic congestion, capacity issues of public transport (once the pandemic passes) necessitate solutions for upgrading the Upfield Line. According to Infrastructure Australia, the northern region Transport Corridor will reach and exceed capacity in the next decade. Will you support duplication and extension of the Upfield rail line to Craigieburn and Wallan for provision of a more reliable and frequent rail service catering for the growing population in Moreland and residents in new growth suburbs further north?

(no label)

Strongly Agree

Q9

Transport: Tram Network Extension: As a Councillor will you support ongoing advocacy for the Victorian State Government to extend the No 58 West Coburg Tram along Derby street in Pascoe Vale, and No 19 North Coburg tram routes further north along Sydney Road to Campbellfield?

(no label)

Strongly Agree

Q10

Transport: Mode shift - What actions will you be pushing for to facilitate a mode shift to more sustainable modes of transport in Moreland as part of, or beyond, Moreland Integrated Transport Strategy (MITS), including changes to parking restrictions, increasing public transport advocacy, cycling and walking infrastructure?

as a cyclist we need to make cycling safer so more people will use it as a way of getting from A to B

Q11

Heat Vulnerability: Large sections of Moreland's north are at the extreme end of the Heat Vulnerability Index, meaning residents are very susceptible to global warming. What will you do to address this beyond existing policies, including Moreland Urban Heat Island Effect Action Plan (Word Doc 48MB), Moreland Urban Forest Strategy 2017-2017 (PDF 9MB), Cooling the Upfield Corridor Action Plan?

animal agriculture is the leading cause of climate change so I would push for a reduction and a move away from it.

Q12

Waste Management. Moreland aims to be a leading council in sustainable waste management, yet its rate of diverting waste to organics and recycling sits just above the state average. What will you do to help Moreland in the rollout of the Food and Garden Organics Collection Service, and achieve Moreland's 2030 zero waste to landfill target as part of Zero Carbon in the Planning Scheme – ESD Policy v2.0?

green bins for all properties and the banning of single use plastics items to be sold and used. example balloons and cutlery

Q13

Energy Efficiency and Renewables. Moreland has a goal of “Efficient and 100% renewably powered energy”. Yet Moreland has one of Victoria’s lowest uptake of solar PV. How can Moreland “walk the talk” on renewable energy and meet the community goals set in the Zero Carbon Moreland – Climate Emergency Action Plan 2020/21 – 2024/25?

I think it would need to be part of the building regulations that all new structures will need to have solar

Q14

Pollution and litter: How will you educate and incentivise business in industrial zones (especially in the North East Ward) to avoid pollution and litter from entering our drains and our creek systems?

banning single use items and maybe a rate cute to businesses who don't use or give out single use items

Q15

Supporting business and the environment as part of Covid RecoveryWhat actions will you take to help Council promote environmentally sustainable jobs as part of a Covid recovery such as by possible development of large abandoned sites for a sustainability hub (such as former Kangan TAFE automotive campus)? How else will you advocate for supporting small business Covid recovery that includes environmental co-benefits?

I think a grants system for new business and existing that are environmentally sustainable to help keep them going through to the other side

Q16

Food SecurityHow would you address food security in Moreland beyond the existing Moreland Food System Strategy? (including as a part of the clean Covid recovery)?

freeing up nature strips and parts of parks that tend not to be used as places for the community as free to use to grow their own food like they have been doing in the UK

Q17

100

Food Security. The IPCC Special Report on Land and Climate Change Summary for Policy makers (2020) articulates major emissions reduction can be achieved from adopting a primarily plant based diet (B6.2). Will you advocate for public health policies that promote proper nutrition and dietary change by Moreland residents as per the IPCC (C2.4)?

Q18

Buildings, Biodiversity and Urban cooling: What would you do as a Councillor to ensure that with new building developments, Moreland has sufficient vegetation cover to contribute to biodiversity outcomes and urban cooling beyond existing policies in the Urban Forest Strategy, Moreland Nature Plan, and the Achieving Zero Carbon in the Planning Scheme – ESD Policy v2.0 project?

as I am a painter as my full time job one thing that is often overlooked is the color being used as light color reflect heat and dark color absorb them. so potentially encouraging the use of light colors on the exterior of luger building

Q19

Cement Emissions. Use of Portland Cement contributes to 8% of global emissions. Alternative low emissions/zero emission cement products are available at reasonably competitive rates. Will you commit to amending Moreland Council Procurement policy sustainability filter to purchase low carbon/zero emissions cement/concrete products?

(no label)

Agree with Reservations

Q20

Climate Citizen Assemblies: Under the new Local Government Act 2020 (community engagement policy), all councils in Victoria are required to use deliberative practices for the development of their Community Vision, Council Plan, Financial Plan and Asset Plan, at the bare minimum. The gold standard of this kind of democratic, deliberative practice is a Citizens' Assembly. So, will you support such a democratic framework for Council's climate emergency response by establishing a Citizens' Assembly?

(no label)

Strongly Agree

Q21

What are your top four priorities for the Council Plan to be formulated for 2021-2025.

- | | |
|------------|---|
| Priority 1 | zero convenience killing of animals in the care of the pound |
| Priority 2 | safer cycling |
| Priority 3 | meals on wheels for pets |
| Priority 4 | A gold stranded of building so that new apartment blocks will last 100yres not 10 as example |
-

Q22

Respondent skipped this question

Do you have any other comments on Council Climate Leadership and Advocacy (include any actions you have taken on this)? Do you have any supplementary comments relating to the questions above, comments on other issues related to climate change not covered, or comments on climate change generally?
