Page 1: 2020 Moreland Council Candidate climate survey

Q1

Candidate Name

Oscar Yildiz

Q2

North West Ward

Contesting Which Moreland Ward?

Q3

Independent

Are you a candidate for a political party? Which Party?
Or are you standing as an Independent candidate?

Q4

If you are receiving campaign funding for this election, who are you receiving funding from? (list all or state 'None')

None

Q5

North West Ward

Connections to Moreland Wards. I am a resident in:

Q6

What are your other connections to Moreland wards

I am a recontesting Councillor

North West Ward

Other (please specify) If you have other connections to Moreland, please state the ward(s) and the connection(s) briefly in 100 characters.

Born and raised locally, my wife operates her small business in Moreland and my entire family call Moreland home.

Q7

Triple bottom line accounting brings to account three domains that we need for a good life. They are economic, environmental and social which includes health. Do you commit as a Councillor for Council to use triple bottom line accounting on all Council infrastructure projects and will you try to ensure that climate emergency is embedded in every Manager's performance plan?

(no label)

Agree Strongly

Q8

Transport: Upfield Rail Upgrade - Problems with parking and traffic congestion, capacity issues of public transport (once the pandemic passes) necessitate solutions for upgrading the Upfield Line. According to Infrastructure Australia, the northern region Transport Corridor will reach and exceed capacity in the next decade. Will you support duplication and extension of the Upfield rail line to Craigieburn and Wallan for provision of a more reliable and frequent rail service catering for the growing population in Moreland and residents in new growth suburbs further north?

(no label)

Strongly Agree

Q9

Transport: Tram Network Extension: As a Councillor will you support ongoing advocacy for the Victorian State Government to extend the No 58 West Coburg Tram along Derby street in Pascoe Vale, and No 19 North Coburg tram routes further north along Sydney Road to Campbellfield?

(no label)

Strongly Agree

Q10

Transport: Mode shift - What actions will you be pushing for to facilitate a mode shift to more sustainable modes of transport in Moreland as part of, or beyond, Moreland Integrated Transport Strategy (MITS), including changes to parking restrictions, increasing public transport advocacy, cycling and walking infrastructure?

I believe we need more funding for public transport including the duplication of the Upfield line including the extension of the North Coburg Tram and Melville Rd Tram.

Q11

Heat Vulnerability: Large sections of Moreland's north are at the extreme end of the Heat Vulnerability Index, meaning residents are very susceptible to global warming. What will you do to address this beyond existing policies, including Moreland Urban Heat Island Effect Action Plan (Word Doc 48MB), Moreland Urban Forest Strategy 2017-2017 (PDF 9MB), Cooling the Upfield Corridor Action Plan?

I will continue to lobby those Councillors who don't appreciate or understand the impact of the global warming on our community and ensure the local MP's are also fighting and taking action on this issue.

Q12

Waste Management. Moreland aims to be a leading council in sustainable waste management, yet its rate of diverting waste to organics and recycling sits just above the state average. What will you do to help Moreland in the rollout of the Food and Garden Organics Collection Service, and achieve Moreland's 2030 zero waste to landfill target as part of Zero Carbon in the Planning Scheme – ESD Policy v2.0?

I believe educating the community is key and if elected I will do everything I can to ensure our messages are communicated effectively with residents. We need to ensure at a macro level that we engage the community to buy in and appreciate the impact that poor recycling can have on our planet.

Q13

Energy Efficiency and Renewables. Moreland has a goal of "Efficient and 100% renewably powered energy". Yet Moreland has one of Victoria's lowest uptake of solar PV. How can Moreland "walk the talk" on renewable energy and meet the community goals set in the Zero Carbon Moreland – Climate Emergency Action Plan 2020/21 – 2024/25?

Same as the answer above in terms of educating our community about the positive impact of solar on our environment. Most residents are tuned into WIIFM What's In It For Me, if we can ensure that residents see the value of solar then I believe more will undertake the various offers. Subsidising and ensuring utility companies are returning good feeding tariffs are also important for the uptake.

Q14

Pollution and litter: How will you educate and incentivise business in industrial zones (especially in the North East Ward) to avoid pollution and litter from entering our drains and our creek systems?

It's really disappointing to find some organisations are resorting to poor practices and some continue to pollute our creeks and water ways. I believe the EPA have a massive obligation and we need to work closely with them and literally knock on every door of those businesses who could be a risk for such pollution.

Q15

Supporting business and the environment as part of Covid Recovery What actions will you take to help Council promote environmentally sustainable jobs as part of a Covid recovery such as by possible development of large abandoned sites for a sustainability hub (such as former Kangan TAFE automotive campus)? How else will you advocate for supporting small business Covid recovery that includes environmental co-benefits?

I think Councillors play a very important role and with the CEO they can ensure that we continue to be champions in this space. This site could be another CERES but it requires the State MP to buy in, I'm baffled as to why this space has been left idle for over 20 years and the state is not prepared to act on it. Sad and very frustrating.

Q16

Food Security How would you address food security in Moreland beyond the existing Moreland Food System Strategy? (including as a part of the clean Covid recovery)?

I think the Meals on Wheels service can be expanded and funding for this service can help expand it to other needy areas of the city.

Q17

100

Food Security. The IPCC Special Report on Land and Climate Change Summary for Policy makers (2020) articulates major emissions reduction can be achieved from adopting a primarily plant based diet (B6.2). Will you advocate for public health policies that promote proper nutrition and dietary change by Moreland residents as per the IPCC (C2.4)?

Q18

Buildings, Biodiversity and Urban cooling: What would you do as a Councillor to ensure that with new building developments, Moreland has sufficient vegetation cover to contribute to biodiversity outcomes and urban cooling beyond existing policies in the Urban Forest Strategy, Moreland Nature Plan, and the Achieving Zero Carbon in the Planning Scheme – ESD Policy v2.0 project?

I have no issue with this question and I believe developers must reflect the above policies in their developments. I'm confident developers have come to appreciate and understand the impact they can have on the environment and most adhere to such policies.

Q19

Cement Emissions. Use of Portland Cement contributes to 8% of global emissions. Alternative low emissions/zero emission cement products are available at reasonably competitive rates. Will you commit to amending Moreland Council Procurement policy sustainability filter to purchase low carbon/zero emissions cement/concrete products?

(no label)

Strongly Agree

Q20

Climate Citizen Assemblies: Under the new Local Government Act 2020 (community engagement policy), all councils in Victoria are required to use deliberative practices for the development of their Community Vision, Council Plan, Financial Plan and Asset Plan, at the bare minimum. The gold standard of this kind of democratic, deliberative practice is a Citizens' Assembly. So, will you support such a democratic framework for Council's climate emergency response by establishing a Citizens' Assembly?

(no label)

Strongly Agree

Q21

What are your top four priorities for the Council Plan to be formulated for 2021-2025.

- | | |
|------------|---|
| Priority 1 | Supporting The Community to Recover From Covid |
| Priority 2 | Connecting with Residents |
| Priority 3 | Being a forward thinking progressive city |
| Priority 4 | Being a responsible Council |
-

Q22

Do you have any other comments on Council Climate Leadership and Advocacy (include any actions you have taken on this)? Do you have any supplementary comments relating to the questions above, comments on other issues related to climate change not covered, or comments on climate change generally?

I think I've always made my intentions clear and I support any initiatives that will minimise the impact we have on our environment and the climate.
